

Become a member of the Swiss Internet Security Alliance

Help to make Switzerland the most secure internet country in the world.

The Swiss Internet Security Alliance (SISA) was created in 2014 by well-known representatives of the business community. Our vision is to make Switzerland the most secure internet country in the world. We promote cooperation as well as transfer of knowledge and information among our members and important organisations in the Swiss internet landscape. With iBarry.ch, our goal is to help the Swiss public to help themselves by raising their awareness of potential dangers and to provide them with comprehensive information about risks and solutions pertaining to vulnerabilities of their internet use and their internet-connected devices.

The main focus is on the following aspects:

- **Raising awareness of internet security and prevention**
- **Online security checks**
- **Comprehensive education and information enabling Swiss users to help themselves**
- **Transfer of information and knowledge as well as communication of expert knowledge**
- **Exchange of information (working groups, SISA Phishing Feed)**

Who are the members of SISA?

Our members include representatives of the business community as well as relevant government authorities and non-profit organisations. SISA brings together companies such as internet and web hosting providers, banks and insurers, competence centres, educational institutions, police forces, and many more.

Members of SISA aim to make a long-term commitment, assume their social and economic responsibility, and jointly contribute to making the Swiss internet more secure.

As an association, we pay close attention to our sovereignty and credibility, which is why membership applications are always reviewed by the SISA Board of Directors.

Types of membership

We offer the following memberships:

- **Platinum members:** annual fee of CHF 10,000, active membership with voting rights
- **Gold members:** annual fee of CHF 1,000, passive membership without voting rights
- **Partners*:** no annual fee, partnership without voting rights

*non-profit/public institutions and strategic partners on a cooperation basis
